

Week 1 Assignment: R Test

Venus Kuo

15 January, 2017

Directions:

This is an RMarkdown file. It will allow you to integrate text and R code into one file. Please complete parts 1 and 2 below. Part 3 should be left alone (it should work as needed) When you are done, **Knit** the text and code into a PDF file. Basically, just press the **Knit** button above. After Knitting, please submit via GitHub. Review your in-class Git assignment if needed. It is due on **January 18th, 2015 at Noon**.

Assignment:

1. Edit your name in the *author* line above (line 3)
2. Print a message in the R terminal

Ex. Print “*Hello, World!*”

```
print("Hello, World!")
```

```
## [1] "Hello, World!"
```

Now, print your own statement

```
print("Microbial Seed Banks")
```

```
## [1] "Microbial Seed Banks"
```

3. Tell us about your system. Basically, just leave this part alone and it will do magic

Do Not Modify This Part

```
# info <- unname(c(Sys.info()[6],  
#                 .Platform$OS.type,  
#                 Sys.info()[1:2],  
#                 R.version.string,  
#                 .Platform$GUI,  
#                 system("git --version", intern = TRUE)))  
#info
```
